This Paper Consists of 2 Printed Pages. Please Turn Over.

Q1. Contemporary international law is largely a product of European and North American history.

Critique the validity of this assertion.

Q2. Evaluate the significance of the Policy-oriented approach in international legal theory.

Q3. Critique the utility of international custom as a source of international law.

Q4. Discuss the emerging role of non-state entities as subjects of international law.

Q5. Attempt a comparative analysis of international law and municipal law.

Q6. Critique the role of International Environmental law in matters of pollution and resource conservation.
