MMUST observes ZERO tolerance to examination cheating

This Paper Consists of 2 Printed Pages. Please Turn Over.

Q1. Supported by relevant examples, explain the significance of non-state actors in the foreign policy-making process of any one African country of your choice.

Q2. Assess the utility of Group-think model in the US- Soviet Union foreign relations during the Cold War period.

Q3. Discuss the extent to which internal state determinants are significant in the foreign policy-making process of at least one African state.

Q4. Compare the role of political and economic instruments in the foreign policy-making process of any developed state of your choice.

Q5. Evaluate Kenya's foreign policy towards Somalia in the immediate post-colonial period

Q6. Beyond national objectives, the means of achieving them is pertinent to the foreign policy-making process. Critically assess the validity of this assertion.
