INSTRUCTIONS TO CANDIDATES

This paper contains four questions. Attempt question one and any other two the questions.

TIME: 2 HOURS

MMUST observes ZERO tolerance to examination cheating

This Paper Consists of 2 Printed Pages. Please Turn Over. ►

1. Disaster mental health is based on the principles of “preventive medicine”, has necessitated a paradigm shift from relief centered post-disaster management into a holistic, multi-dimensional integrated community approach to health promotion, disaster preparedness, prevention and mitigation. Write a concise essay, making use, where appropriate, of materials covered in this course, explaining the extent to which you agree or disagree with this statement.
(30 marks)
2. Discuss in detail the core principles of mental and psychosocial support services that can be employed in the different phases of disaster targeting all groups in a population. (20 marks)
3. Explore how conceptual framework for psychosocial support intervention has made valuable contributions in the area of humanitarian assistance for communities in complex emergencies.
(20 marks)
4. Discuss why monitoring and evaluation should be employed when providing psychosocial support interventions for those affected in emergency settings (20 marks)
